

**Amendments to the Claims:**

Please amend claims 1, 12, 18, 24 and 25 and cancel claims 3, 4 and 21 as shown in the claim listing below. All pending and withdrawn claims are listed below. This listing of claims will replace all prior versions, and listings, of claims in the application.

**Listing of Claims:**

1. (currently amended) A wagering game for one or more players comprising:
  - one or more decks of playing cards;
  - a gaming table having a layout depicting a player primary wager area and a player side wager area;
  - a primary wager associated with said primary wager area, said primary wager dependent upon a value of a player's hand exceeding a value of a dealer's hand but not a maximum value of thirty-three said player's hand comprising at least three cards, wherein each player and a dealer must play all cards dealt; and
  - a side wager associated with said side wager area, said side wager dependent upon a poker ranking defined by each of three first cards dealt to a player wherein each player is dealt three or more-player's cards.
2. (original) The wagering game of claim 1 wherein said one or more players may draw a maximum of five cards.
- 3-4 (cancelled)
5. (original) The wagering game of claim 1 wherein the poker ranking is defined by a player's first three cards.
6. (original) The wagering game of claim 5 wherein winning poker rankings are selected from the group consisting of flushes, straights, straight flushes, and threes of a kind.

7. (original) The wagering game of claim 1 wherein said dealer must draw a card as long as the dealer's cards have a value of twenty-five or less.

8. (original) The wagering game of claim 1 wherein said dealer may no longer draw cards if the dealer's cards have a value of twenty-six or more.

9. (original) The wagering game of claim 1 further comprising a display device for displaying the value of each player hand and the dealer hand.

10. (original) The wagering game of claim 9 wherein said dealer inputs the value of each player hand and the dealer hand via a dealer interface in communication with the display device.

11. (original) The wagering game of claim 1 further comprising means for visually indicating the value of each player hand and the dealer hand.

12. (currently amended) A method of playing a wagering game comprising:  
    offering one or more players a primary wager and a side wager;  
    dealing one or more players and a dealer three or more playing cards, wherein each of said players and said dealer must play all cards dealt;  
    allowing said players to draw one or more cards;  
    allowing said dealer to draw cards until a value of said dealer's cards exceeds a preestablished minimum value;  
    resolving each player's side wager wherein said side wager is dependent upon a poker ranking defined by each of three first cards dealt to a player wherein each player is dealt ~~three or more of each player's cards~~; and  
    resolving each player's primary wager wherein said primary wager is dependent upon a value of each player's hand exceeding a value of a dealer's hand wherein a total value of thirty-four or more is deemed a bust.

13. (original) The method of claim 12 wherein said preestablished minimum value is twenty-five.

14. (original) The method of claim 12 wherein said poker rankings are defined by a player's first three cards.

15. (original) The method of claim 12 further comprising said dealer calculating a value of each player's hand and the dealer's hand and causing the values to be electronically displayed.

16. (original) The method of claim 15 wherein the value of each player's hand and the dealer's hand is input by the dealer via a dealer interface in communication with the display device.

17. (original) The method of claim 12 further comprising said dealer calculating a value of each player's hand and the dealer's hand and causing the values to be identified on or near a table layout.

18. (currently amended) A gaming machine for facilitating a wagering game comprising:

means for accepting a player primary wager and side wager;

a processor in communication with a random number generator and display device, said processor for causing said display device to display three or more randomly generated player cards and three or more randomly generated dealer cards;

selection means for said player to draw up to five cards which are each displayed on said display device, wherein said player must play all cards dealt to said player; and

said processor further for causing said display device to display dealer cards until a value of the dealer's cards exceeds a preestablished dealer minimum value, said processor further for resolving said side wager wherein said side wager is dependent

upon a poker ranking defined by each of three first cards dealt to a player wherein each player is dealt three or more ~~of the player's~~ cards, said processor further for resolving said primary wager wherein said primary wager is dependent upon a value of a player's hand exceeding a value of a dealer's hand wherein a total value of thirty-four or more is deemed a bust.

19. (original) The gaming machine of claim 18 wherein a player may use said selection means to draw a maximum of five cards.

20. (original) The gaming machine of claim 18 wherein a player loses the primary wager if the value of the player's hand exceeds a maximum value.

21. (cancelled)

22. (original) The gaming machine of claim 18 wherein the poker ranking is defined by a player's first three cards.

23. (original) The gaming machine of claim 18 wherein said processor further for causing said random number generator to select dealer cards and said display device to display dealer cards until a value of the dealer's cards exceeds twenty-five.

24. (currently amended) A wagering game for one or more players comprising:  
one or more decks of playing cards;

a gaming table having a layout depicting a player primary wager area and a player side wager area;

a primary wager associated with the primary wager area, the primary wager dependent upon a value of a player's hand exceeding a value of a dealer's hand, said player's hand comprising at least three cards, wherein each player and a dealer do not discard any dealt cards;

a side wager associated with the side wager area, the side wager dependent upon a poker ranking defined by each of three first cards dealt to a player wherein each player is dealt three or more player's cards; and

the primary wager being lost if either the value of the player's hand exceeds thirty-three or the value of the dealer's hand exceeds the value of the player's hand with neither the value of the player's hand or the value of the dealer's hand exceeding thirty-three, the primary wager being won if either the value of the player's hand exceeds the value of the dealer's hand with neither the value of the player's hand or the value of the dealer's hand exceeding thirty-three or the value of the dealer's hand exceeds thirty-three and the value of the player's hand does not exceed thirty-three and said side wager being won if said poker ranking is a straight, flush, straight flush or three of a kind.

25. (currently amended) A method of playing a wagering game comprising:

offering a primary wager and a side wager;

dealing one or more players and a dealer three or more playing cards, wherein each of said players and said dealer do not discard any dealt cards;

allowing the players to draw up to five total cards;

allowing the dealer to draw cards until a value of the dealer's cards exceeds a preestablished minimum value;

resolving each player's side wager wherein the side wager is dependent upon a poker ranking defined by each player's first three cards, the side wager being won when the poker ranking is either a straight, a flush, a straight flush or three of a kind; and

resolving the primary wager wherein the primary wager is lost if either the value of the player's hand exceeds thirty-three or the value of the dealer's hand exceeds the value of the player's hand with neither the value of the player's hand or the value of the dealer's hand exceeding thirty-three, the primary wager is won if either the value of the player's hand exceeds the value of the dealer's hand with neither the value of the player's hand or the value of the dealer's hand exceeding thirty-three or the value of the

dealer's hand exceeds thirty-three and the value of the player's hand does not exceed thirty-three.
